

Camco Technologies – AI Developer

Position

To strengthen our AI team, we are looking for an AI Developer with a sharp eye for detail and a hands-on mindset. Together with four other developers, you will contribute to the development of computer vision and image recognition algorithms within our R&D team.

As an AI Developer at Camco Technologies, you will work on the development and integration of deep learning models that power our AI-based OCR (Optical Character Recognition) and OFR (Optical Feature Recognition) solutions, used globally in terminal automation:

- Develop and optimize AI models for image and video analysis
- Write and maintain production-ready code for AI- driven applications
- Integrate AI solutions into existing software systems
- Collaborate with the R&D team to explore and implement new AI concepts
- Validate and test models to ensure performance, scalability and reliability
- Contribute to technical documentation and knowledge sharing within the team

Profile

- Master's degree in Computer Science, Artificial Intelligence, Data Science, or a related field.
- At least 3 years of experience in AI development
- Strong programming skills in Python and C/C++
- Experience or interest in computer vision, image processing, and deep learning is a strong plus
- Able to work in a structured manner and manage complex projects independently
- Analytical mindset with strong problem-solving skills
- Good communication skills in both Dutch and English

Offer

- A challenging job in a high-tech and steadily growing company (+/-180 employees), with the opportunity to further develop your skills
- You will join a company that encourages initiative and entrepreneurship
- You will be part of the R&D team of several passionate and experienced software developers

- A permanent contract with a competitive salary package (company car, fuel card, meal vouchers, eco vouchers, pension plan, health insurance,...), flexible hours and the possibility to work hybrid
- Free soup and fruit is available every day
- Company events are organized regularly
- Easy access by car and parking is available
