

Camco Technologies – AR Accountant

Position

We are looking for a motivated **Accounts Receivable Officer** to join our team of 6 colleagues. You'll be part of a supportive and collaborative environment where accuracy, ownership, and a positive team spirit are key.

As an **AR Accountant**, you play a key role in ensuring a smooth follow-up of our customer portfolio and incoming payments:

- You translate sales contracts into accurate project and maintenance invoicing
- You closely monitor outstanding receivables and customer credit balances
- You send payment reminders and maintain contact with customers
- You handle disputes in close collaboration with project managers
- You report on the status of outstanding invoices to management
- You support the finance team during month-end closing
- You follow up on documentary credits from initiation to closure

Your Profile

- You hold a bachelor's degree in a relevant field or equivalent through experience
- You have at least 5 years of experience in Accounts Receivable or a similar role
- You have strong Excel skills and are comfortable working with Business Central and MS Office
- You are fluent in Dutch and English
- You are customer-oriented but also able to act assertively when needed
- You work accurately, structured, and with great attention to detail
- You are well-organized and proactive in following up on tasks
- You enjoy working both independently and as part of a team
- You bring positive energy and a solution-oriented mindset

Our Offer

- A permanent contract with a competitive salary package (including company car, meal vouchers, health insurance, ...)
- Flexible working arrangement, including the option to work 4/5 (80%)

- A challenging role in a high-tech and steadily growing company (+200 employees)
- Opportunities to further develop your skills and grow professionally
- Team events and company activities
