

Camco Technologies – International Service Technician

Offer

As a leader in container terminal automation, we make a difference worldwide. Thanks to our solutions, we ensure faster flow and control of containers. With the necessary training, you will be prepared to explore the world independently and perform your work effectively.

- You will take on a challenging role in a high-tech, growing company, with the opportunity to discover the world.
- You will receive a permanent contract from the start and an **attractive compensation package**.
- This includes **daily allowances** for work abroad, adding up to **€1,600 net extra per month**.
- Every technician is provided with a company car and an international fuel card.
- Opportunities to further develop your skills are plentiful.

Position

- You are jointly responsible for the assembly, commissioning, and maintenance of technical installations at container terminals in ports across all continents;
- Together with a team of technicians and/or project managers, you will carry out installations, testing, and adjustments. You can perform your tasks independently;
- You are capable of critical thinking, analyzing, and solving problems on your own;
- You carry out your work assignments in accordance with predefined standards and safety instructions
- You provide accurate and complete reporting of your interventions.

Profile

- You enjoy **frequent travel** both within and outside Europe (80%), often for several consecutive weeks;
- You have obtained a technical diploma in A2 electricity/electromechanics/industrial maintenance techniques or a related field;
- Having an affinity for networking/PC systems is an advantage;
- Safety is a top priority for you;
- You have strong administrative and communication skills in **English**. Knowledge of Dutch, or another language, is a nice-to-have;
- You are **customer-oriented** in your work and interactions, with a natural ability to prioritize the needs and satisfaction of clients. As a Camco technician, you are also an ambassador for Camco, representing the

company with professionalism and pride.

- You are solution-oriented, capable of working independently, and have a flexible attitude;
- You hold a category B driver's license, enabling you to travel easily to the terminals.
