

Camco Technologies – Junior Project Application Developer (Leuven/Gent) From road to vessel

Function

- You develop software for automation projects within an industrial context, in popular languages such as C# and TypeScript (Angular).
- You build full-stack applications covering back-end automation and visualization of data/images to the end-user.
- You translate the customer's wishes into powerful customized applications.
- You travel to our customers worldwide for integration testing and go-live. Camco is active worldwide in locations ranging from Rotterdam to Sydney.

Profile

- You obtained a Master's degree in Computer Sciences, or you obtained an academic Bachelor's degree and already have minimum 2 years of working experience in a related field.
- You have a basic understanding of C# or a similar OO language.
- You are familiar with TypeScript and at least one front-end TS/JS based framework (Angular, AngularJS, React, Vue, ...).
- You have a proficient understanding of web markup languages, including HTML5, CSS3.
- You are flexible with respect to programming languages.
- You are willing to travel worldwide.
- You love complex challenges and strive for user-friendly solutions.
- You have a good knowledge of Dutch and English. Knowledge of French, German, Mandarin or Spanish are a plus.
- You are eager to learn and follow the latest evolutions in software technology.
- You love working in a result-oriented environment, and you know how to communicate in a professional way with clients.
- You love working in team and on projects.
- You have a no-nonsense and open-minded way of working.
- You have an abstract and analytical mind. You are committed, focused, problem-solving, and punctual.

- You highly value ownership, quality and flexibility in your job.

Offer

- You will have a challenging job in a high-tech, innovative company in Leuven with the opportunity to further develop your skills.
- You will be part of a team of 30+ passionate and experienced software developers, who advocate open communication and participation.
- You will have a permanent contract with a competitive salary package, flexible hours, a company car, group insurance, health insurance, meal vouchers, echo vouchers and per diem allowance for travel days.
- You will work in a company that encourages initiative and entrepreneurship.
- Hybrid working is possible after a training period.
- You will be able to have free soup and fruit everyday in the headquarters.
- We organise company events on a regular basis.
- The office is easily accessible by car and there is parking available.
