

Camco Technologies – Test Engineer (hardware)

Position

Are you a motivated graduate with a passion for technology, testing, and product development? We're looking for an enthusiastic **Junior Mechanical or Electro Technics Engineer** to join our team and contribute to innovative engineering solutions from day one.

Your responsibilities:

- Perform component and product-level tests
- Investigate and analyze test samples and results
- Program and set up test cycles
- Write clear and well-structured test reports
- Make technical recommendations for product improvements
- Collaborate closely with R&D and engineering teams

Profile

- You just graduated with a bachelor's or master's degree in engineering (Mechanical, Electromechanical or similar)
- Strong analytical and structured approach
- Critical thinker with an eye for detail
- Proactive, hands-on mentality
- Interest in testing, validation and product development
- (Optional) Experience in testing or lab environments is a plus
- You are highly proficient in both Dutch and English, both spoken and written
- You are immediately available

Offer

- A challenging entry-level role in an innovative, tech-driven environment
- Mentoring and support from experienced engineers
- Opportunities for personal growth and development
- Competitive salary and attractive benefits package
