

Camco Technologies – Field Technician (Ashdod)

Your position

For one of our valued clients in Ashdod, Israel, we are looking for skilled and motivated mechanical technicians to carry out corrective and maintenance work on our products installed at the terminal.

After completing an in-depth technical training period in Belgium to familiarize yourself with our innovative products and systems, you will take on the following responsibilities:

- Independently perform preventive and corrective maintenance tasks on gates and cranes equipped with Camco Technologies systems
- Troubleshoot critical issues by following step-by-step manuals, thinking critically, and resolving them on your own.
- Execute tasks in accordance with pre-established standards and strict safety regulations.
- Prepare detailed and complete reports of all interventions.
- Provide clear feedback to the client, ensuring transparency and trust.
- Communicate effectively with the local client team and Camco's support team to ensure smooth operations.
- Workdays are Sunday to Thursday, normal working hours.

Your profile

- Experience and/or degree in electromechanics, electricity, industrial maintenance techniques, or a related field.
- A first work experience as a mechanical technician is sufficient for this role
- Familiarity with networking and PC systems is an advantage.
- You are proficient in English (written and spoken).
- You are customer-oriented, a problem-solver, and result-driven.
- You are organized and have excellent communication skills.
- You are comfortable working alone.
- You are comfortable working at heights (up to 40 meters) and ideally possess an IPAF "Working at Heights" certificate.

Our offer

- **Comprehensive Training:** Receive in-depth training in Belgium, including accommodation and flights, to ensure you gain the knowledge and skills needed to succeed in your role.

- **Competitive Salary:** We offer a highly competitive salary, ensuring your compensation reflects your experience and skills.
- **Benefits Package:** We provide a range of benefits to support your well-being and professional growth.
